

## YOUR REALITY 2022

**Absurdities.** Ineffective and inane practices include Plexiglass between you and cashiers, social distancing, but only front to back, side to side is acceptable, one-way aisles, and spraying alcohol over every surface and piece of food. People cower in fear, shunning their peers and avoiding hospitals for genuine life-threatening illnesses. All this nonsense is encouraged and mandated by our “rulers.” Also, we saw the vilification of Sweden. That country and its sensible folk refused to join the panicked followers. Influencers have not, and will never, apologize for their loathsome behavior and errors.

**Canceling “vaccine” skeptics.** The calling for death, pain, and misery for those who refused the vaccine is a detestable reality. As expected, propagandists led these satanic-like mantras. Social media outlet “monitors” led the way. The gleeful and malicious firing of those who refused the COVID vaccine is inhumane and spiteful. Universities were particularly appalling, not surprisingly, though private companies won the most spiteful contest in many instances. The inept “Experts” at the CDC still ban foreigners from entering the States unless they are “fully” vaccinated.

**Death.** The pain, harm, and deaths caused by the vaccine are terrible realities that the legacy media refuses to report. Injuries that “experts” and rulers promised were impossible, just as they promised if you got the COVID vaccine. Remember the sales pitch; you could not become ill or spread the virus. Lying and incompetence abounded, and it continues today.

**VAERS.** The Vaccine Adverse Event Reporting System (VAERS) has logged over 1.4 million adverse events associated with the COVID-19 shots, including more than 30,000 deaths, half of which are from the United States. No other vaccine has ever caused as many injuries. While the harms are undeniable, health authorities still do what they can to deny the risks associated with the COVID shots. The U.S. Centers for Disease Control and Prevention fought for 15 months to avoid releasing V-Safe data. The U.S. Food and Drug Administration also refuses to release autopsy reports of those who died post-jab.

**Gain-of-function research.** The creation of the SARS-Cov2 virus was paid for by you to support the scientists. Even if the number of COVID deaths is an exaggeration to some degree, the number perished by this almost certainly man-made creation is in the millions. The dangerous gain-of-function experiments continue.

**George Floyd.** Experts encouraged attending “fiery but mostly peaceful” protests to honor this person’s name. All in the name of “justice.” Our leaders assured and promised us that the risk of spreading disease was worth it to further the political goals of our elite class. Every other gathering, including Church attendance, was blamed for spreading COVID.

**Lockdowns.** Even the World Health Organization itself warned in late 2019 against lockdowns. Lockdowns helped spread disease (as they do every winter when we go inside), ruined and destroyed many small businesses and working people, and ultimately led to the meteoric inflation we now suffer. The inflation we suffer now is caused by the never-ending government

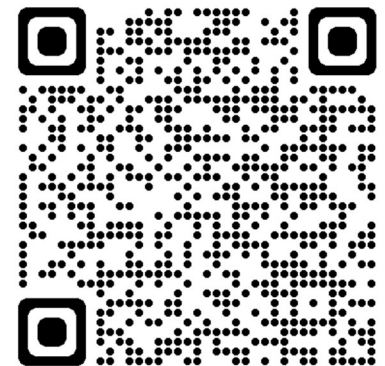

solution (printing fiat money) to correct the lockdown “solutions.”

**Masks.** Experts suddenly set aside a century of research—it was already well-known mask mandates would fail—and insisted on masks anyway. Because of the “We Must Do Something Fallacy.” Even though masks do nothing to stop the viral spread during surgeries. Going maskless was made a crime. A crime! The leaders told us that children who needed masks had to wear them the most.

**Police.** We saw the arresting of people alone on beaches, pepper spraying the maskless, bullying, and bludgeoning protesters. All this led to neighbors ratting out neighbors and a general increase in social acrimony.

**Religious exemption rejection.** The USA’s military denial of religious exemptions from the vaccine constitutes a genuine national threat. The discharging of the COVID unvaccinated at a time of a recruiting deficit constitutes a pathetic surrender to political correctness. Treason.
